Communication
Investment memos, committee presentations, client reporting

Education

BSc Finance
University of Example
2015 to 2019
First-class honours

Certifications

CFA Level III candidate

Experience

Senior Financial Analyst, Northgate Capital

2022 to present

- Lead coverage of the consumer and retail sectors, presenting investment cases to the portfolio committee each month.
- Valued 14 listed retailers with DCF and peer multiples; the recommendation to trim two holdings avoided a 9% drawdown.
- Manage research covering $42M in assets.

Financial Analyst, Harbour & Co.

2019 to 2022

- Built valuation models and maintained the firm's earnings database.
- Supported client reporting and quarterly performance reviews.

Selected projects

Revenue forecasting model

- Replaced a manual spreadsheet with a driver-based Python model; forecast error fell from 7% to 3.1% and monthly reporting time dropped by two days.

Portfolio risk dashboard

- Built a SQL and Power BI dashboard tracking volatility, concentration and drawdown across 30 positions for the investment committee.

Consumer retail sector review

- Sector report combining DCF, comparable analysis and risk screens, used to rebalance a model portfolio.
